tools . stones . silver . supplies . jewellery . classes

Workingsilver.com is a family owned business located in British Columbia, and caters to hobby and artisan silversmiths in Canada. Kathy developed Workingsilver.com in 2009 to be the most user friendly on-line retailer of silversmithing tools, stones, supplies and materials in Canada. In 2014, the Workingsilver company expanded to include a Retail Store & Teaching Studio in New Westminster, BC.

Kathy's (and her staff's) focus is to support the jewellery artisan's creative process with excellent service and advice in the store front, with excellent instruction by 5 instructors in the teaching studio, and throughout the website. The resource area on the website has techniques, tutorials, tips, articles. As well, our blogs have great information!

Workingsilver.com reaches the many Canadian jewellery artisans who live in rural areas without access to retail stores with the speciality materials they need. Of course, we also serve Canadians living in urban areas.

## **Events in 2018:**

**Silversmithing Classes:** Workingsilver has an year round roster of Beginner-Advanced Classes in the Workingsilver Teaching Studio. Our classes are small, our instruction is excellent, and each student leaves class with jewellery they've made!

**Tuesday Open Studio:** The Workingsilver studio is open every Tuesday evening for students working on their own projects (non-instructional time).

**New Westminster Cultural Crawl:** Workingsilver hosted 10 jewellery artisans during the Cultural Crawl weekend.
